

Assignment 2

		Expected Points	Reached points	Grade	
Process report					
EXTRA	process/activities chart	1	0		
project schedule		20			
who did what		20			
cooperation of the members	ex: availability, response time, willingness to help, knowledge contribution etc.	60			
		100	0		
				0	20%
Analysis report					
DEDUCTIONS	1 per extra page / 1 for inappropriate format		0		
what you did					
	dataset statistics	10			
	plots	10			
	remarks about data distributions	10			
	dataset pre-processing: report a replicable process of querying and/or feature engineering, and provide a rationale for the choice of such.	10			
	(in)dependent variables: analysis / rational	10			
	algorithm: which/why/how it works	5			
	parameters of algorithm used	10			
	Evaluation of model created	10			
	quality of the writing	10			
	final model description	10			
What you learned		5			
		100	0	0	60%
	Kaggle ranking			0	20%
			final	0
